STEM Design Sprint with the Zoo

3 big zoos + 5000 animals + 1600 staff and volunteers + 2.4 million visitors + hundreds of conservation programs = a STEM education playground!

In this interactive session, you will participate in a quick design sprint that can be used to inspire a love of STEM.

You will experience STEM and Design Thinking through the eyes of a learner as Liam Birkett and Cheryl Laks from Zoos Victoria step you through a real-world zoo problem.

You'll get access to free teaching resources that you can use right away.
