Fairytales and stories have often been given 'voices'

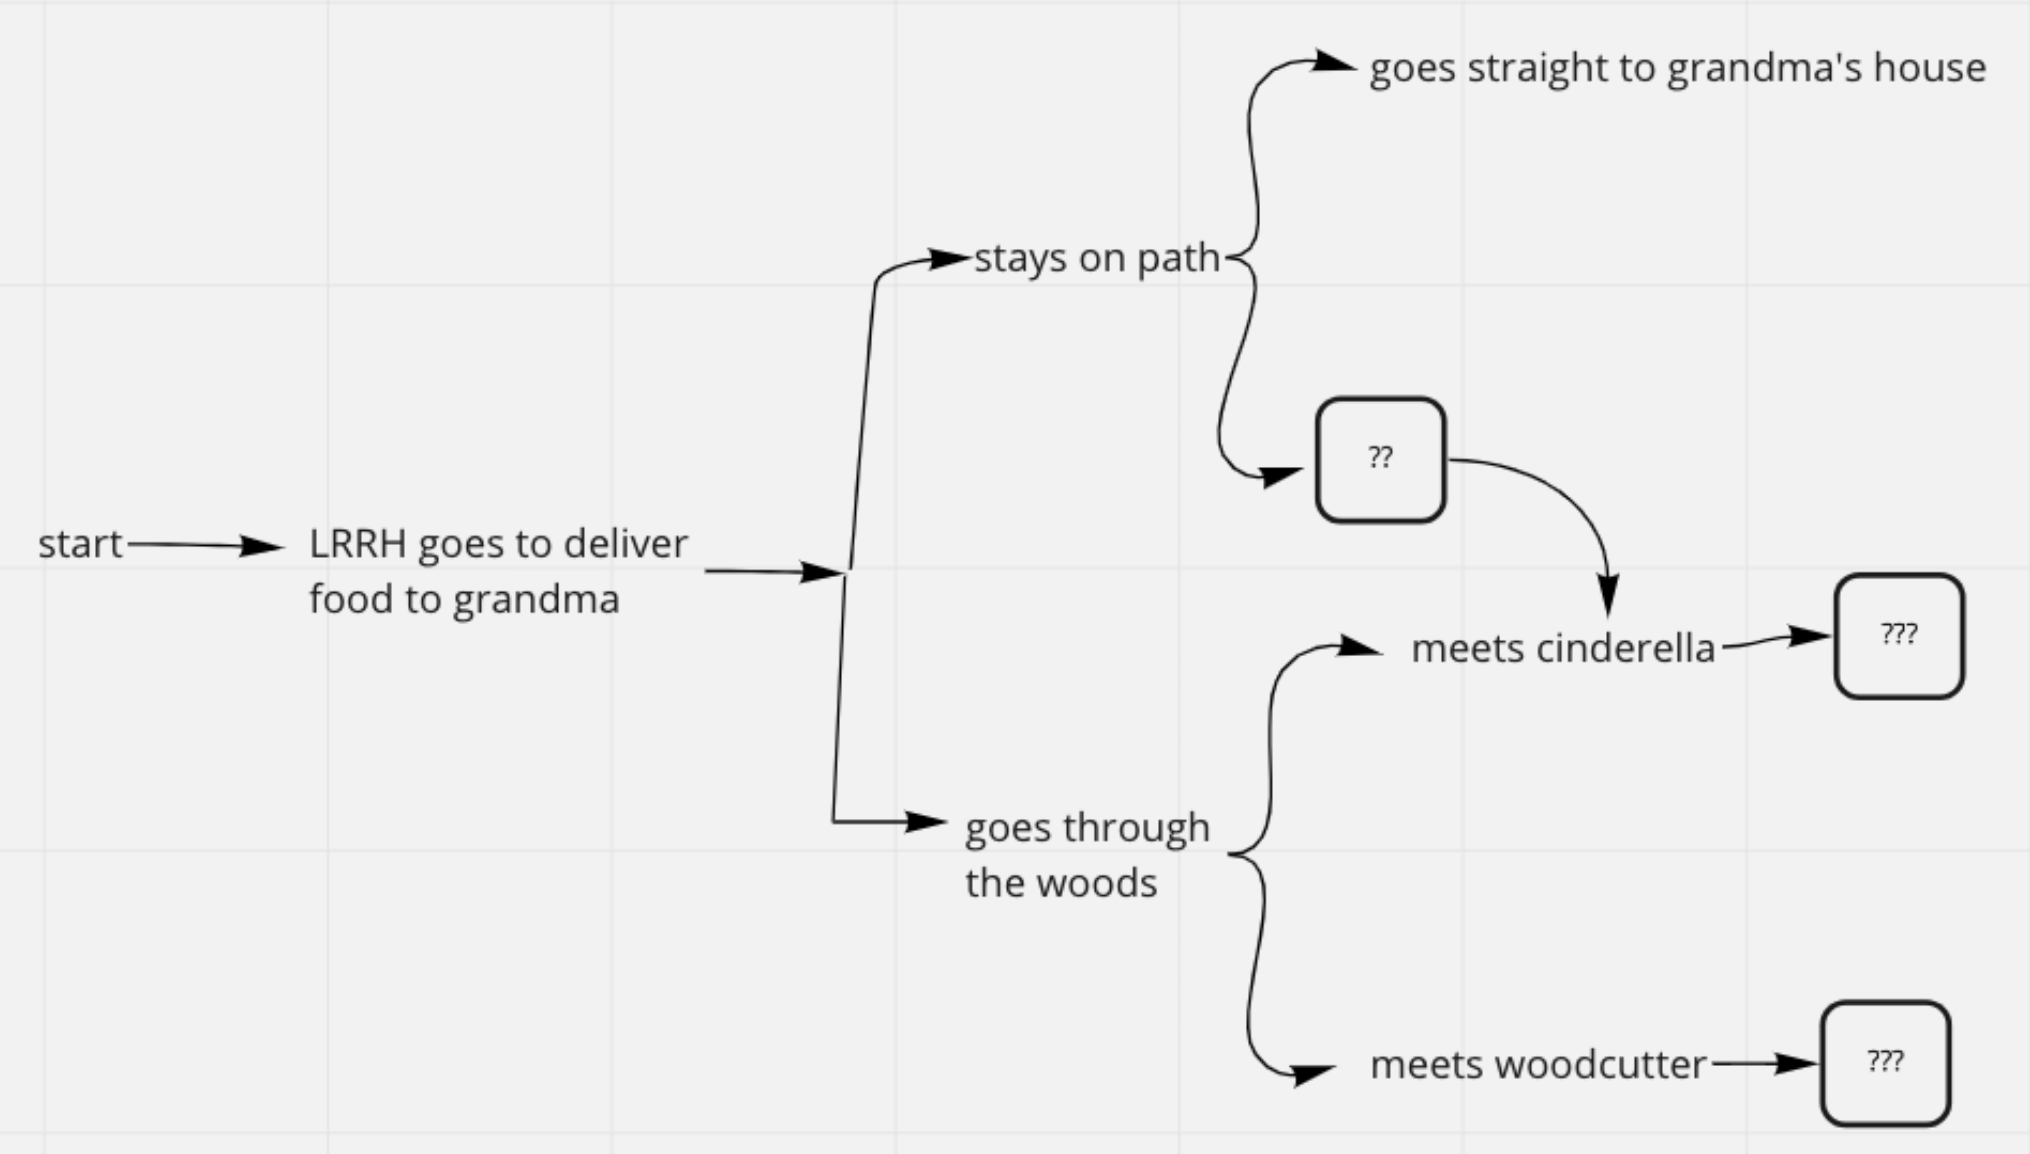

Step 1: Change the VOICE of the story

Grab some paper and pen - choose one of the following:

1. Point of View (from the Wolf, the grandmother or woodcutter?)
2. Change the setting (Modern laneway, tropical island?)
3. Insert or swap characters (three little pigs mash-up?)

Step 2: Adding Choices

Add 3 – 4 alternative pathways to your story from Step 1

Explore this Metaverse experience. You will be creating one similar to this using the same program.

Success Criteria

I understand the key elements of the story of LRRH, the characters, setting and events

I have added new events and decisions to my story that fit with my given theme. These are appropriate for a choose your own adventure game.

I shared my ideas, and collaborated with my group, learning new digital platforms. "I have tested my Meta verse experience."
